- 📍 Ho Chi Minh City
- 🎂 2004/11/09

Languages

- Vietnamese: Native
- English: Basic communication and reading comprehension.

Skills

Laboratory & Technical Skills

- Basic laboratory procedures and safety practices
- Sample preparation and basic chemical analysis
- Data recording and result reporting
- Basic knowledge of analytical chemistry and quality control

Computer Skills

- Microsoft Word, Excel, PowerPoint, AutoCAD 2D,...
- Basic information technology application and basic programming skills

Soft Skills

- Good communication and teamwork
- Detail-oriented and responsible
- Fast learner and adaptable

About Me

Third-year Chemical Engineering Technology student with basic knowledge of chemistry, laboratory safety, chemical handling, and quality control. Careful, responsible, and willing to learn in a production environment. Seeking an internship opportunity to apply academic knowledge to product inspection, laboratory testing, data recording, and quality assurance support.

Education

Go Den High School 2020–2023

Selected Class for Excellent Students

HCMC University of Technology and Engineering 2023–Present

Major: Chemical Engineering Technology
Current GPA: 7.45/10

Work Experience

2020– Present

PART-TIME

PRIVATE TUTOR

- Tutored students in Chemistry and basic science subjects.
- Prepared learning materials and explained concepts clearly.
- Monitored students' learning progress and supported exam preparation.
- Developed communication, patience, responsibility, and time-management skills.

HA VU KIM NGAN

Chemical Engineering Intern

Career Objective

- Short-term: Gain practical experience in quality control, laboratory testing, product inspection, and production support.
- Long-term: Develop into a QC/QA or technical staff member, supporting quality improvement and production efficiency.

Relevant Coursework

- Analytical Chemistry
- Organic Chemistry
- Physical Chemistry
- Chemical Unit Operations
- Process Technology
- Laboratory Practice
- Basic Polymer Knowledge

Achievements

- Selected Class for Excellent Students at High School.
- Achieved an overall GPA of 9.7/10 during high school.
- Member of the Provincial Excellent Student Team.
- Current GPA: 7.45/10 in Chemical Engineering Technology.

Academic Activities

Student Scientific Research

- Engaged in student research activities in chemical engineering, focusing on the development of hydrogel materials.
- Supported literature review, data collection, and research discussion.
- Practiced teamwork, data recording, problem-solving, and attention to detail.

Chemical Competition

- Participated in a university-level chemical competition.
- Strengthened chemistry knowledge, logical thinking, and teamwork skills.
